

Labour Market Information (LMI) for Bexley

Understanding the local job market can help you make well-informed decisions about your career. Here are some key insights into the labour market in Bexley:

- **Growing Sectors:** Bexley has seen growth in sectors such as health and social care, retail, logistics, and education. These industries are expected to continue expanding, offering a range of opportunities for those with the right skills.
- **Construction and Infrastructure:** With ongoing development and regeneration projects, there are growing opportunities in construction and infrastructure roles.
- **Retail and Hospitality:** The thriving local high streets and shopping centres provide opportunities in retail, food service, and hospitality.
- **Logistics and Transport:** Bexley's excellent transport connections support a strong logistics and supply chain sector, with demand for roles in warehousing and driving.
- **Education and Early Years:** With a family-friendly focus, there is consistent demand for teachers, teaching assistants, and early years professionals.

Current Job Trends

- **Demand for Healthcare Professionals:** Health and social care continue to be key areas, with a high demand for nurses, carers, and healthcare assistants.
- **Construction and Trade Roles:** Regeneration projects create opportunities for skilled trades such as electricians, plumbers, and builders.
- **Digital Skills:** As businesses adopt new technologies, digital skills are increasingly in demand, particularly for roles in IT support and marketing.
