

# Labour Market Information (LMI) for Surrey

Understanding the local job market can help you make well-informed decisions about your career. Here are some key insights into the labour market in Surrey:

- **Growing Sectors:** Key growth areas include health and social care, professional services, retail, and technology.
- **Technology and Innovation:** Surrey's proximity to London and thriving business parks create opportunities in IT, software development, and engineering.
- **Health and Social Care:** This remains a significant sector, with ongoing demand for carers, nurses, and support workers.
- **Retail and Hospitality:** Surrey's town centres and countryside attractions support roles in retail, food service, and hospitality.
- **Construction:** Residential and commercial development projects drive demand for skilled tradespeople and project managers.

## Current Job Trends

- **Tech and IT Roles:** A growing sector with opportunities in software development, IT support, and engineering.
- **Healthcare Professionals:** Continued need for carers, nurses, and social workers.
- **Skilled Trades:** High demand for electricians, plumbers, and builders in response to development projects.
